About Us: PWC is the Regional Facilities Management Team. We offer timely, best value, innovative, technological solutions and alternatives to meet our clients' facility management needs. We support the missions and provide the best Quality of Life for our NDW Family. Our facility services include: life cycle management, planning, maintenance, repair, construction, engineering, building services, grounds maintenance, transportation, utilities and other installation support.

About the Job: Work involves maintenance and repair to electrical systems throughout the Public Works Center area of responsibility. Supervisor assigns work orally or via work orders. Uses building plans, sketches and drawings to lay out installation of electrical conduits, boxes and associated gear. Performs repairs to existing equipment such as replacing motors and controllers. Is responsible for high voltage distribution set-up. Must be able to use the base high voltage on-line diagram to locate distribution switches and isolate and/or redirect electrical power to affected buildings in the event of fault. Incumbent may have to work with hazardous materials including the abatement and removal of lead and asbestos.

Located on the Historic Washington Navy Yard, Naval District Washington is the Navy's Flagship in the Nation's Capital.
